Claim Rejection under 35 U.S.C. 112, 2nd

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 3,4,7,8,25,65, 66,72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 3,4,7,8,25,65 recites the limitation "NAE11:0, NAE13:0, NAE15:0, NAE:17:0, NAE19:0" in line 2-3. There is insufficient antecedent basis for this limitation in the claim.

4. The term "NAE" in claim 64-66 is a relative term which renders the claim indefinite. The term "NAE" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Claim 25,72 contains the trademark/trade name PETALIFE, OASIS, etc. . Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe anti-senescent and, accordingly, the identification/description is

indefinite.

Claim Rejection under 35 U.S.C. 102 (b)

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 64-66,70 are rejected under 35 U.S.C. 102(b) as being anticipated by Smrt et al (CS 195040; 1/31/80). Smrt teaches a composition comprising (a) palmitoylethanolamine, (b) lecithin and (c) water. See abstract.

Claim Objection / Allowable Subject Matter

Claims 5,59 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the instant invention comprising N-lauroylethanolamine or N-myristoylethanolamine. Claims 1,2,6,9-17,20-24,26-50,60-63,67-69,71,73-82 are allowable. The prior art does not teach or suggest the instant invention comprising an auxin, a gibberellin or cytokinin.
